These vehicles are made in the United States or Canada by members of the UAW and Canada's Unifor union, formerly the Canadian Auto Workers (CAW). Because of the integration of vehicle production in both countries, all of the vehicles listed as made in Canada include significant UAW made content and support the jobs of UAW members.

However, vehicles marked with a single asterisk (*) are also produced in Mexico.

Heavy duty Chevrolet Silverados and GMC Sierras are built in Flint, Michigan, and Heavy Duty Silverados are built in Canada. Light duty Chevrolet Silverado and GMC Sierra Regular Cabs are produced in Mexico only. Vehicles marked with a double asterisk (**) are the crew cab versions of the Chevrolet Silverado light duty and GMC Sierra light duty trucks. Those are assembled by UAW members in Fort Wayne, Indiana, and also in Mexico.

Canada produces the light Duty Silverado Crew Cab but not the GMC version. When purchasing a vehicle marked with a single or double asterisk, it's important to check the Vehicle Identification Number (VIN). A VIN beginning with "1" or "4" or "5" identifies a U.S. made vehicle; a "2" identifies a Canadian made vehicle; a "3" identifies a vehicle made in Mexico. Not all vehicles made in the United States or Canada are built by union-represented workers. Vehicles not listed here, even if produced in the United States or Canada, are not union made. ■
